DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-9 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The applicant argues that since a communications network “typically” comprises computers, software and switches and that since an “example” of a communications network is a telephone network, the method of billing is statutory. A careful read of the claims however show that the communications network is not claim limiting. Rather, the billing system (which can reads on a billing method, see, The Original Roget’s Thesaurus of English Words and Phrases) is claimed with an intended application to a communications network. Each of the method steps is claimed without a claimed link to the technology (see, receiving, processing, receiving, processing, calculating, and generating). For these reasons, the rejection is proper.

Claim Rejections - 35 USC § 112

2. Claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The applicant argues the “billing system” is a system of components. The examiner is unable to find this definition in the specification. There is reference to billing system infrastructure which would imply that billing system is a method and not a apparatus.

Art Unit: 3624

Moreover, looking to claim 9 the applicant limits the billing system to comprise a call processing system and an invoice. ~~There~~^{the} specification lacks any limiting definition of a call processing or invoice system (e.g., "a call processing system is defined as ..."). It is not clear what system of components (if any) are compulsory of the system of components of a call processing or invoice processing systems. For these reasons, the rejection is proper.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
